

INSTITUTE
FOR BUILDING GREAT NATIONS

TRANSFORMING NATIONS LEADERSHIP PROGRAM

**A step-by-step manual for a national
transformation process under a Biblical
worldview.**

**Start the movement that will transform your
country!**

BUILDING GREAT NATIONS **INSTITUTE**

HIGH FORMATION FOR THE REFORM OF NATIONS

The INSTITUTE for BUILDING GREAT NATIONS aims to provide high-level training for leaders worldwide who desire to transform their nations with a biblical worldview. We believe in the value of intellectual formation as a fundamental tool to empower leadership with skills and knowledge that will help them respond effectively to the demands of this complex world. We affirm that knowledge based on real and measurable results is the only way to generate prosperity, justice and freedom.

OUR MISSION

To generate transformational movements in every nation through networks of professionals trained in how to apply the biblical worldview to accelerate and amplify the national and local transformation.

LEADERSHIP PROGRAM FOR NATIONAL TRANSFORMATION

Our unique "Leadership for National Transformation" program is similar to a "boot camp" for God's army that is in time of war (Ecclesiastes 3) and needs to gather all soldiers as quickly and thoroughly as possible; and in sync as much as possible.

THE PROGRAM IS INTENDED TO BE IMPLEMENTED NATION BY NATION AND IS DIVIDED INTO 5 LEVELS IN ORDER TO CREATE A NATIONAL TRANSFORMATION MOVEMENT.

LEVEL 1: KEY FUNDAMENTALS FOR A NATIONAL TRANSFORMATION.

LEVEL 2: BEST PRACTICES AND MODELS FOR THE REFORM OF NATIONS

LEVEL 3: MANAGEMENT AND TRAINING OF TRANSFORMATION TEAMS

LEVEL 4: STRATEGIC PLANNING IN THE SPHERES OF INFLUENCE

LEVEL 5: IMPLEMENTING STRATEGIES FOR CULTURAL CHANGE AND NATIONAL IMPACT

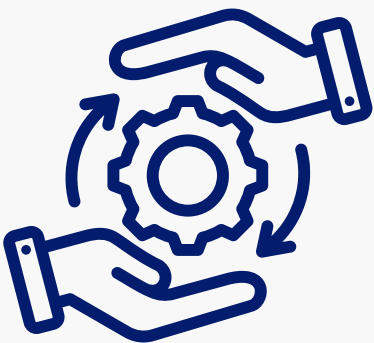

OUR PROGRAM INCLUDES

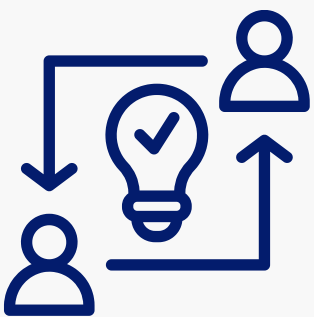

1. Trainings and Workshops: Trainings in the historically proven principles that produce prosperity and freedom in the areas of government, economy, education, health, family and church.

2. National Team Building: Leaders must have the interpersonal intelligence to lead teams and motivate them to generate a movement that can strategically implement positive projects in society's spheres of influence.

3. Generation of Movements that Change Culture: Only movements have the strength to change culture, which is why the program includes a manual to generate a movement of transformation in a nation contextualized to the contemporary national reality.

4. Coaching: Personal and professional coaching to strengthen leaders, discover blind spots and change behaviors. Nations are transformed only when they have healthy leadership.

5. Mentoring and Advising with World Class Experts: In the strategy process it is necessary to be accompanied by experienced leaders who have already successfully implemented changes in the nations. Presidential advisors, renowned economists and successful leaders will be available to accompany the whole process.

EXPECTED RESULTS OF THE PROGRAM

AT THE END OF THE PROGRAM YOU WILL BE ABLE TO...

1. To know the Biblical principles and God's design to change the political, economic, educational, social and spiritual systems of a city or nation.

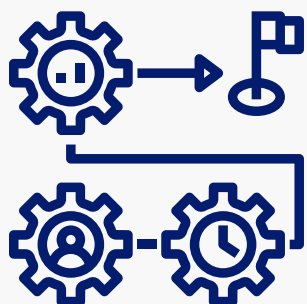

2. Lead a transformation team in your professional area to transform and influence society.

3. Understand and execute cultural and professional transformation strategies and how to scale them in unity with your team/church, following Personal and Corporate Strategic Plans.

4. Understand how God operates and works historically in the nations from Genesis to the present day.

5. Understand the 5 key areas of national development (i.e. 5 signs) or strategies of Christ to disciple nations and cities.

6. Understand the 5 steps to transform society, the 5 Leadership Styles (5 Cs), the 5 Stages to develop Leadership (From self-leadership to leadership at the societal level).

7. Develop an Action Plan with your team (local or virtual) to transform your area with an aligned vision to impact spheres of influence..

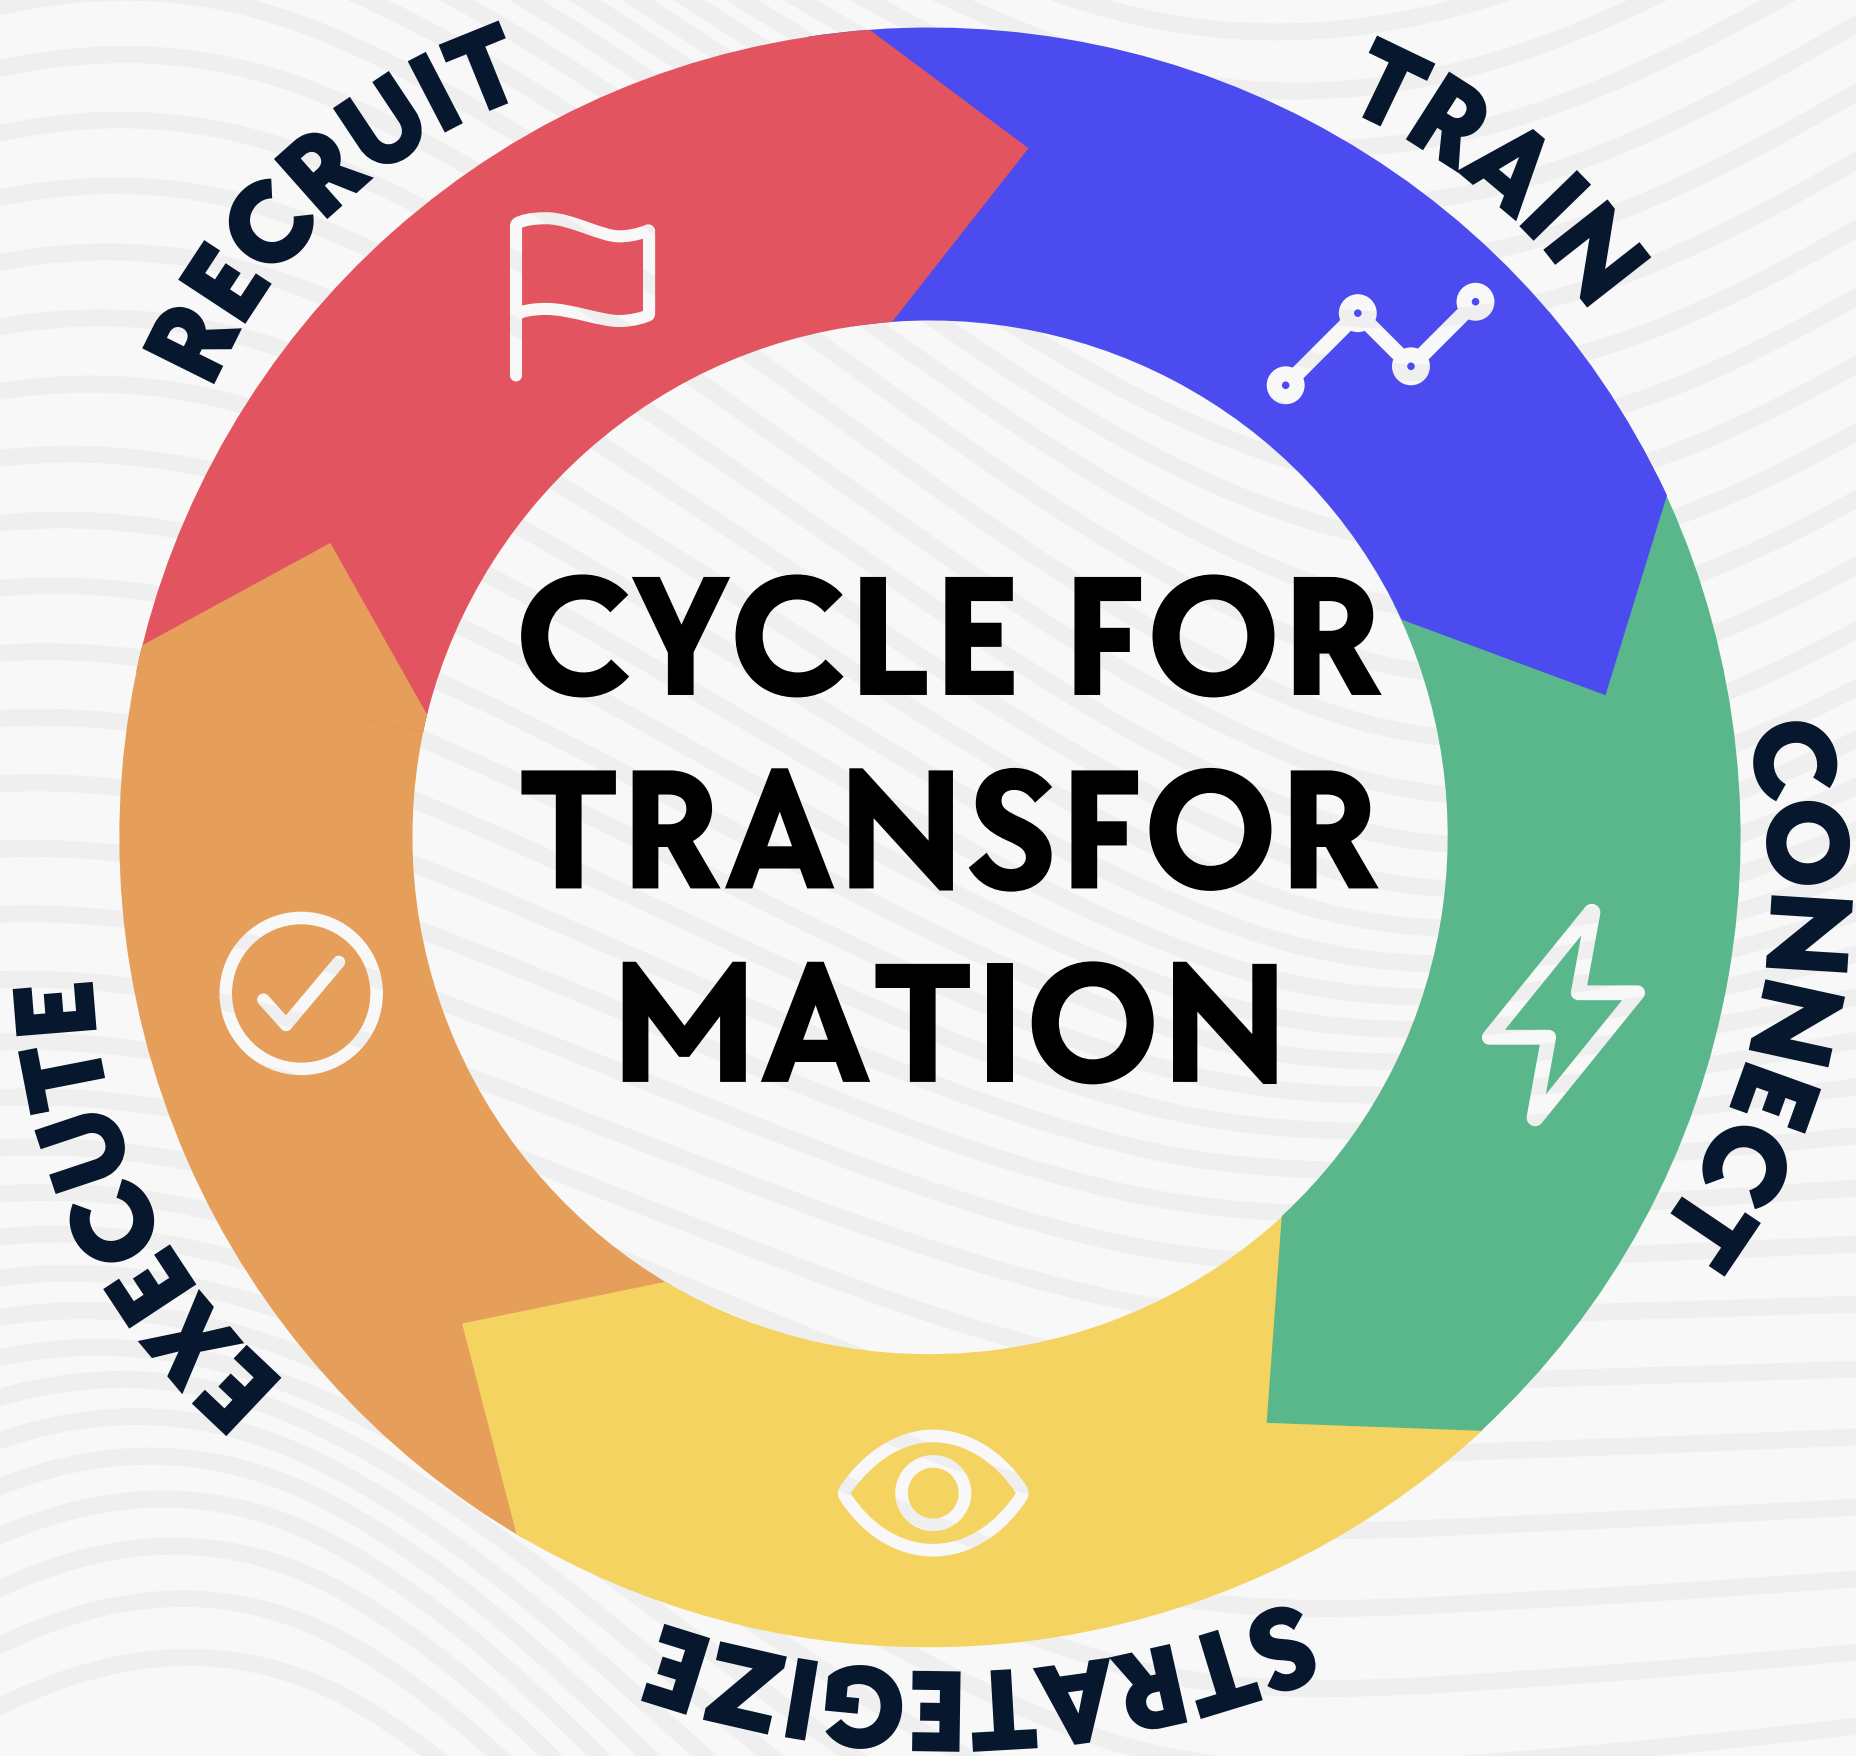

5 STRATEGIC STEPS TO DEVELOP A TRANSFORMATIVE MOVEMENT

1 RECRUIT

To inspire leaders and provide general education in the mission for transformation that brings prosperity, justice and freedom to nations.

TRAIN 2

To impart and provide advanced training to leaders in principles and models for government, education, family, church, business and health.

5 EXECUTE

Execute development plans, create permanent projects and institutions and deploy teams and funding that make the movement self-sustainable.

CONNECT 3

Connect leaders and form transformation teams for each sphere of influence on both local and national levels..

STRATEGIZE 4

Development of historically proven strategies that help position leadership, generate advocacy, and apply the Biblical worldview to produce prosperity, justice and freedom.

LEVEL 1

Key Fundamentals for a National Transformation.

**HISTORICAL AND TRANSCENDENT PRINCIPLES THAT MAKE
NATIONS PROSPER. THE BIBLICAL DESIGN CONTAINS THE
FOUNDATIONS FOR FREE NATIONS.**

LEVEL 1

Key Fundamentals for National Transformation

Empower Leaders of the nations with historical knowledge of God's hand in the nations to rediscover biblical principles for each key area of national life. The principles we will learn come from the Creator and are therefore valid in every society and at any time in history, not just in one nation or era.

God's plan is to bless all nations, but today many nations face serious problems because they have forgotten the fundamentals that sustain free nations.

LEVEL 2

Best Practices and Models for Reform of the Nations

Advanced and in-depth training in historically proven principles and models that bring freedom, prosperity and justice.

Nations need to change their broken systems with new models that enable development and the purpose of level 2 is to prepare knowledgeable leaders to take on the practical task of building teams and executing projects in spheres of influence.

GOVERNMENT

EDUCATION

SOCIAL

ECONOMY

SPIRITUAL

BIBLICAL AND PRACTICAL BEST PRACTICES AND MODELS FOR REFORMING CURRENT SYSTEMS IN ORDER TO DEVELOP PROCESSES OF TRANSFORMATION IN THE DIFFERENT SPHERES OF SOCIETY.

LEVEL 2

Best Practices and Models for Reform of the Nations

The world was created by God with a pre-established system and design for the functioning of just, free and prosperous societies and nations. With the fall of man, the systems (designs) of God's truth also fell, evidenced in anti-scientific ideologies that formed unbiblical models and designs. Romans 12:2, explains that we must transform and align our way of thinking according to God's will, in order to restore the creation and align the systems with the original models and designs. This Diploma will help leaders to know the principles and designs of the Kingdom of God for every sphere of society. As they advance, they will learn the fundamentals that the Biblical Worldview provides about the design that transforms the arts, business, economics, politics, family, media, science, education and the church itself, to the model and system given by God for the correct functioning of each one of them.

As a result, students will have the capacity and accompaniment to create local transformation networks that articulate leadership and key organizations with impact in one or several spheres, with the purpose of generating real and profound changes that drive a reform of their nation.

LEVEL 3

MANAGEMENT AND TRAINING OF TRANSFORMATION TEAMS

**STRUCTURING TEAMS TO DEVELOP TRANSFORMATIONAL
STRATEGIES FOR DISCIPLESHIP OF NATIONS**

LEVEL 3

Management and Training of Transformation Teams

This is the stage where we consciously develop these qualified leaders with skills and a mindset to build professional networks and partnerships for strategic action. This involves structuring action teams, civil organizations, activism, and strategic organizations under a territorial organization to transform a nation.

We follow the "Action Learning" model, which is a methodology widely used in companies both to train leaders and to execute relevant team projects.

Networking and partnering in spheres of influence, preparing to make a real contribution as a team in the form of a real project. This part of the process will have two aspects:

1. Learn to be part of a winning team and all the dynamics that go with it: healthy relationships, excellent communication, problem solving, conflict resolution, high performance (results) and lots of fun..
2. Design a relevant and impactful project in the chosen sphere of influence (family, education, government, business, arts and media, health, etc.).

Strategic Planning in the Sphere of Influence

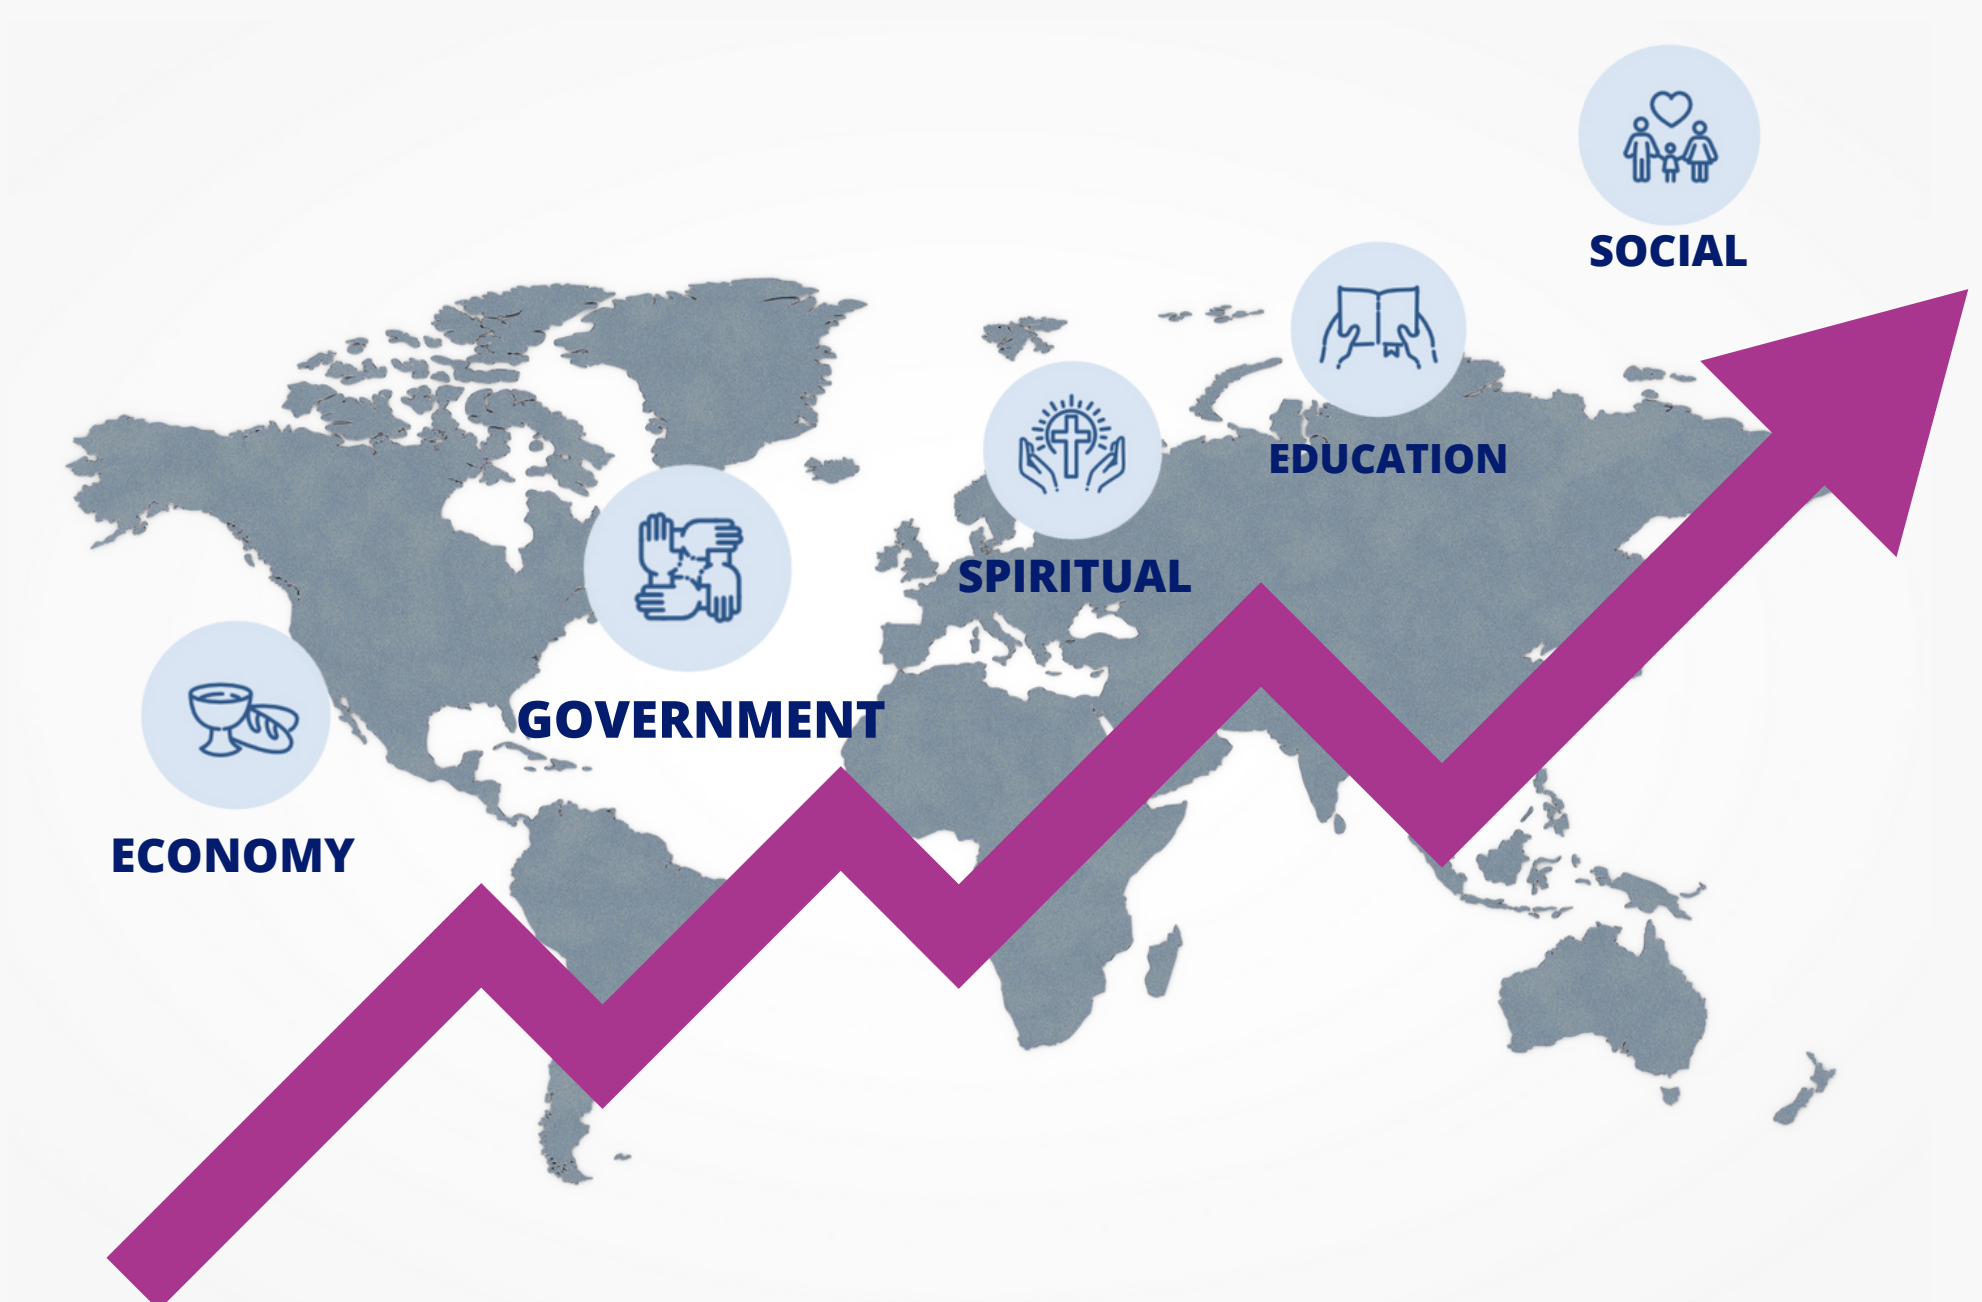

**ACCESS TO HIGH-LEVEL INTERNATIONAL ADVISORS AND
CONSULTANTS FOR SUCCESSFUL STRATEGY DEVELOPMENT**

STRATEGIES FOR TRANSFORMING CULTURE

LEVEL 4

Strategic Planning in the Sphere of Influence

Develop long-term strategic plans with high-level international consultants for each professional area. Learn and develop projects with the best experts in the world.

Our leadership development programs drive organizational change and progress. The most successful leadership programs have these characteristics in common:

- They drive strategy and advance the united agenda.
- They cultivate a strong, differentiated leadership bench and talent pipeline, so you can execute your strategies for both today and tomorrow.
- They promote cultural change that aligns with the strategy and objectives of other teams for greater impact.
- They build organizations that are goal-focused, financially self-sustaining and nationally impactful.

Implementing Strategies for Cultural Change and National Impact

01

03

04

**IMPLEMENTATION OF THE STRATEGIC PLAN AND
TEAMS WITH SUSTAINABLE FINANCING.**

**WHAT CANNOT BE MEASURED, CANNOT BE
IMPROVED.**

LEVEL 5

Implementing Strategies for Cultural Change and National Impact

Organize and prepare teams to implement their strategic plan with sustainable financing. The goal will only be achieved when teams put the principles into practice and the culture of the company receives a measurable impact.

The implementation of these strategies will determine the solutions to the most recurrent concerns and priorities for action on issues related to innocent human life, the natural family, economic and political freedom, local community development, etc.
